## ARCHITECTURE

Iconic, integrated, and impressive – behold a true expression of artistic architecture. The fully restored historic corner building acts as an architectural counterpart to the modern brick and stone podium housing over 2,000 sq. ft. of retail; and the 52-storey residential tower that rises above. The vision, an interplay of inverted U-shaped white metal panels punctuated by black metal pixels playfully enveloping the building in a distinct fish-scale pattern. The effect unlike any other in the sky.
